Mr. Ball -

Ive been asked to review wrong-doing by one of the big 4 cpa firms here in SC and ran across your case. I am very impressed by the amount, and quality, of your work.

In our case, the market cap of the audit client dropped \$4 Billion when a detrimental 18 month old engineering report was finally released to the public when it was discovered by government official.

I would like the opportunity to compare notes with you if you have a moment - particularly the prospects of bringing in more experienced securities class action litigators.

Thank you -

Kind regards

Eddie Sullivan
